## What you'll need for each mosquito:

- A pair of scissors
- Something to punch holes with
- 3 black pipe cleaners
- 1 white fuzzy pipe cleaner
- 1/2 of a red pipe cleaner

Instructions:

- Cut out the mosquito and wings
- Punch out each of the colored holes
- Match up the holes of the body and wings
- Bend the black pipe cleaner in half
- Place the black pipe cleaner downward through the wings
- Make sure half of the pipe cleaner is on the left and half is on the right
- March up the wings to the body
- Place the pipe cleaner through the body of the mosquito
- Bend the fuzzy white pipe cleaner in half
- Twist the red pipe cleaner around the middle of the white pipe cleaner
- Place the white pipe cleaner upward through the head of the mosquito
- You're done!
