

GeauxVetLink Portal Information

Version 2- Updated April 2023

GeauxVetLink is our online portal for veterinarians which provides 24/7 online access to your patient's records through our website. Our system is automatically updated throughout the day, and gives you access to lab results, image reports, medical documents, prescriptions and more. You can also refer patients directly through the portal. You can choose to receive notifications when a mutual patient checks in, checks out, documents are updated, or a patient passes away. These notifications can come via email, fax, or any combination of the two.

If you need assistance with the portal, don't see a mutual patient, or prefer to not use the portal, our referral coordinator can be reached during normal business hours at 225-578-9600 option 2 or sareferrals@lsu.edu.

To access the portal:

1. Go to https://lsu.edu/vetmed/veterinary_hospital/veterinarians.php

The screenshot shows the LSU School of Veterinary Medicine website. The header includes the LSU logo and 'SCHOOL OF VETERINARY MEDICINE'. A navigation menu contains links for 'About Us', 'Academics', 'Hospital', 'Animal Care', 'Research', 'Giving', 'Diversity', and 'Jobs'. Below the navigation, a breadcrumb trail reads 'Home / Veterinary Medicine / Veterinary Hospital / Information for Veterinarians'. The main content area is titled 'Information for Veterinarians' and contains a paragraph: 'The LSU Vet Med Veterinary Teaching Hospital works in partnership with referring veterinarians to create an optimal treatment plan for pets, horses, and livestock. We will share information each case status, conditions, and treatment with both animal owners and referring veterinarians.' Below this paragraph is a list of services with dropdown arrows: 'Emergency Referrals', 'Specialty Referrals', 'GeauxVetLink' (highlighted), 'Teleradiology Service', and 'Louisiana Animal Disease Diagnostic Lab'.

2. Click on the GeauxVetLink tab and log in

The screenshot shows a login form titled 'Primary Referring Veterinarian Login'. The form has a purple header. Below the header, there are two input fields: 'User Name' and 'Password (Case Sensitive)'. Below the 'User Name' field is a link for 'User Name Help?'. Below the 'Password' field is a link for 'Password Help?'. At the bottom right of the form is a purple button labeled 'Secure Login'.

NOTICE: Our system is updated throughout the day, medical notes are uploaded as they are completed.

1. Once you are logged into the portal, it will by default show you any mutual patients we have seen in the last month. You can find additional patients by searching patient first name, client last name, or extend the time frame using the drop-down menu.
2. Once you locate the patient, select “Show” under the details tab on the far right. This will open the available patient information. From here you can scroll through the information. You can also open any attachments with the Open icon.

To refer a patient:

1. Select Refer Patient
2. Begin filling in each field. Next will progress you through each section of the referral form. Required fields are marked with red asterisks.
3. You can still email or fax records if you prefer, but the portal also gives you the option to attach them directly to the referral.
